THIRTY CENT MARK PREDICTED

Farmer Receives Seven to Eight Cents For Chickens That Will Be Quadrupled in Price Before Reaching Consumer's Table—Butter Boycott inaugurated by New York Women Spreads Rapidly to Other Parts of Country—Toledo in Line.

New York, Jan. 22.—Dispatches from Chicago to the New York Produce News are taken in certain circles engaged in the produce business to indicate that a concerted effort is being made by New York members of the National Butter, Egg and Poultry association to gain control of the entire 1912 output of poultry in the country in order to force the price of poultry higher than it has ever been before.

According to the Chicago dispatch the entire season's "crop" to use a trade word, with the exception of a few small blocks still in the hands of speculators, has been bought up by a group of half a dozen New York dealers, and the price of dressed fowl will go to 30 cents a pound as the result of their activities.

If A. Emerson of the International Auction company, in discussing the proposed inflation of poultry prices, said:

"The farmer is getting from 7 to 8 cents for his birds. To kill, dress and pack to New York and to cover commission of the middlemen represents 5 cents more on the pound. This would put dressed chicken on the wholesale market here at from 13 to 15 cents, and the chickens that are coming from 25 to 30 cents a pound to the public should be selling at retail at between 18 and 20 cents."

Animals On Big Spree

Drink and Act Like Human Beings at Society Dinner.

San Francisco, Jan. 22.—Mrs. Andrew Welch's "jungle" dinner at the Fairmount hotel is the sensation of the day in high society circles. The banquet table represented a scene in a jungle. Figures of lions and tigers, giraffes and elephants peered from miniature thickets, but it was the introduction of living creatures into the picture that furnished an element of eccentricity.

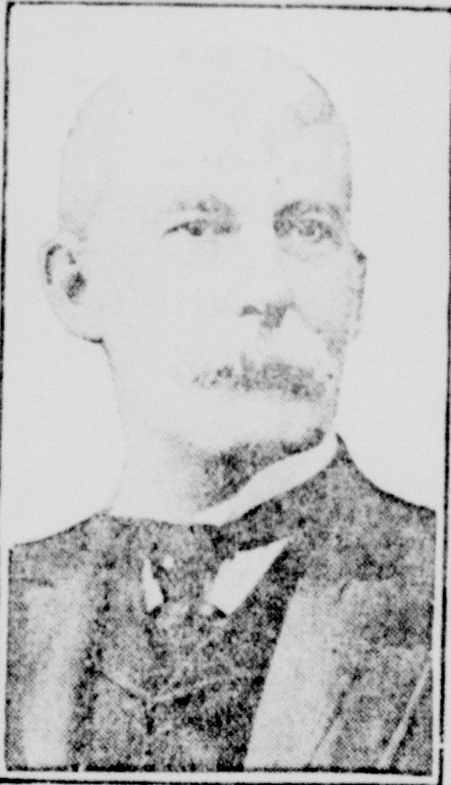

Ducks, parrots, frogs, lizards, canary birds and crabs kept strange company with the lay figures of the beasts of the jungle. The commotion of the seating of the guests aroused two parrots and one began to cheer vociferously for Ralph, while the second, who was of the profane type, consigned everyone to perdition by shouting: "You go to hell!" Frogs hopped from the grass-covered table into the laps of the guests and were received with shrieks.

The climax of the fun was reached when a wag suggested that the sportiveness of the parrots be tested by giving them bread soaked in champagne. One bird changed his mild conversational tone to wildly declamatory tones. "Have a good time—have a good time—but be sure and come home by three," and the one subsided and fell asleep. Goldfish were fed on champagne soaked in bread, and turned over and died. Ducks released from cages flew wildly among the electric lights, and stray crabs were found crawling about the dining room.

Instead of being the better half those California women now seem to be the whole thing.—Philadelphia Inquirer.

Key West Celebrates Marriage to Mainland.

Key West, Fla., Jan. 22.—Key West is in gala attire today in honor of her marriage to the mainland, which is effected by the formal opening of the "railroad over the sea," the Key West extension of the Florida East Coast railway, by using the Florida keys as stepping stones. This road runs from Miami to Key West over 165 miles of salt water, and is considered the foremost engineering feat of modern times.

The celebration is international in character. Many foreign embassies and legations have sent representatives to take part in the celebration at the invitation of President Taft, among them Italy, Mexico, Portugal, Costa Rica, the Dominican republic, Ecuador, Guatemala, Salvador and Uruguay.

The completion of the road across the sea is a tribute to the genius and financial courage of Henry M. Flagler, the Standard Oil magnate. The project will shorten the time from the Florida mainland to Cuba by almost 20 hours.

Probe Wilson's Record

Chicago Unionists Prefer Charges Against Governor of New Jersey.

Chicago, Jan. 22.—Governor Woodrow Wilson was attacked on the floor of the Chicago Federation of Labor as a "reactionary masquerading as a progressive" and as "an avowed enemy of organized labor." Excerpts from speeches made by Wilson when he was president of Princeton university, denouncing labor unions as monopolies, were read in a communication sent the central labor body by the Patternmakers' association. The matter was referred to the grievance committee, to investigate Governor Wilson's record and bring in a report at the next meeting.

News Bits

Progressive Democrats attack Governor Harmon's presidential boom in a pamphlet to be sent out broadcast. Charge him with being in cahoots with Wall street crowd.

New York combine accused of cornering the supply of poultry of entire country in an effort to force prices to 30c per lb. Housewives engage in boycott on butter to force price down.

Ulric Sloan, well known criminal lawyer, dies at Cincinnati at 61 years of age, exactly in accord with his prediction made several years ago.

Florida East Coast "Railroad over the Sea" opened to traffic today, connecting mainland with Key West and extending rail service to within 90 miles of Havana, Cuba.

Free Sugar will probably be denied, according to reports emanating from the ways and means committee, but a cut in the tariff from \$1.68 per hundred pounds to \$1.00 is promised.

BUTTER BOYCOTT WINS FAVOR

New York Housewives Won't Eat It While Prices Soar.

New York, Jan. 22.—Letters have begun to arrive in sheaves at the home of Mrs. Julian Heath, president of the Housewives' league, and they are expected to come along in increasing quantities during the week from those who either intend to deny themselves buttered bread or from those who can only bring themselves to cutting down their supply one-half.

Mrs. Heath said: "The appeal of the Housewives' league to consumers to abstain from butter seems to have taken a firm hold. Reports indicate already a heavy falling off in the purchases of butter. Large numbers of persons are indicating by letter and personal statement that they desire to help along but don't think they can get along altogether without butter, but say they will cut down the amount they are buying. Those who don't feel that they can live without butter are requested at least to cut in half their consumption of butter; that will help some. We want all women to join the movement."

CLUB WOMEN PROTEST

Toledo Federation Joins In Boycott on Butter.

Toledo, O., Jan. 22.—Three thousand club women will dispense with butter while the price is high, according to a statement made by the president of the Woman's Federation of Clubs.

Labor union men may also decide to refrain from eating butter while the present range of prices is heavenward, according to Business Agent John Quinlivan. He says a committee of three men from Central Labor union is investigating the cause of the high prices of butter, eggs and other necessities of life.

Boiler Flue Blew Out.

Columbus, O., Jan. 22.—Daniel Clifford, 29, fireman, was scalded to death, and S. D. Wolfe, 35, engineer, of Dayton, had a narrow escape from death when a boiler flue of a Big Four engine blew out just east of the Fourth street viaduct.

New York, Jan. 22.—The United States league finished up its meeting at the Imperial hotel and its circuit is still a seven-town one. Cleveland has the call for the eighth city and this week a committee from the United States league will go to the Forest City to look things over. The Cincinnati grounds are to be within four blocks of the National league grounds in Herrmannsburg, and it appears that the location of the New York park is unsettled.

Bill Reducing Duty From \$1.68 to \$1 a Hundred Pounds on Raw Product Will Be Taken Up as Soon as Iron and Chemical Schedules Are Disposed Of—Means Greater Reduction Than Indicated by Figures Proposed.

Washington, Jan. 22.—After the passage of the bill proposing a revision of the iron, steel and chemical schedules, the sugar tariff revision bill that has been agreed upon by the ways and means committee of the house will be taken up for consideration.

If present plans are carried out, the sugar revision bill will impose a duty of \$1 a hundred pounds on the raw product instead of \$1.68 as at present. The reduction will be greater than appears on the surface. Under the reciprocal treaty agreement with Cuba, sugar imports from the island are admitted at a rate 20 per cent lower than that imposed on the product coming from other countries. As most of the raw sugar brought to this country comes from Cuba, the Democratic rate of \$1 really means a cut to 80 cents. Only a few of the radicals among the house Democrats will insist upon the admission of sugar duty free.

The house leaders declare that from a revenue standpoint free sugar is an impossibility. They point out that sugar is the largest single item of revenue in the tariff law, and at present yields about \$60,000,000 a year. They argue that until other sources of revenue are devised sugar must remain on the dutiable list. It is the opinion of Democratic leaders that the best sugar industry will not suffer under a rate of \$1 a hundred pounds. While this interest prefers the present tariff, some of its spokesmen say that the proposed rate will not materially injure the beet sugar manufacturers.

Mine Disaster Fatal

Dust Explodes While More Than Hundred Work.

Kemmerer, Wyo., Jan. 22.—Fifteen miners are reported killed and probably 40 injured in a "dust" explosion in mine No. 4 of the Kemmerer Coal company. Of the 40 injured, it is known that nine, who have been taken to the hospital at Rock Springs, are in a serious condition. There were 112 men in the property at the time of the explosion, and those who were not killed or injured rushed to the aid of their stricken companions.

The men on top quickly organized for rescue work, but despite their desperate efforts all the dead and injured were not removed until early this morning.

Bandits Flag Wrong Train.

Trinidad, Colo., Jan. 22.—A carefully planned attempt to hold up Colorado Southern passenger train No. 2 at Garcia, 16 miles south of here, was only frustrated by the fact that a freight was flagged by the bandits by mistake.

"Lady Little," a Midget Who Has Amused Londoners

Photo by American Press Association.

A REMARKABLE midget, if the stories of her which come across the Atlantic be true, is "Lady Little," who has been filling an engagement in a London music hall. She is nineteen years old and her height is said to be only twenty-three inches. Recently at a dinner given in the metropolis a large pie was brought to the table, and when it was opened she stood revealed in all the glory of a smart green velvet walking costume and presently tripped about among the wine glasses and coffee cups, shook each of the guests by the finger, sang several songs and made herself very popular with her audience. She is said to be the smallest woman in the world.

Points to Governor's Position as Receiver of C. H. & D. Railroad as Proof That He Is In Cahoots With Wall Street Crowd and Openly Declares That Morgan and Associates Are Back of Effort to Land Presidential Nomination.

Columbus, O., Jan. 22.—Assailing Governor Harmon as the choice of Wall street for the Democratic nomination for president, and warning members of the party not to spoil their chances of victory by nominating other than a progressive, the Progressive League of Ohio opened its campaign in opposition to the candidacy of the Ohio executive. The appeal is issued in pamphlet form, and 100,000 copies will be sent out by former Congressman J. J. Lentz, president of the league.

After reviewing the part played by Wall street in Democratic national politics in 1904, the circular says:

"The Wall street interests, always alert, now see that a Democrat is likely to be elected president in 1912, and are entirely willing that this should be done provided they can choose the candidate for the party. It is clearly manifest that they are now for Judson Harmon as such candidate. This is apparent from the news items in the press throughout the country."

Say Morgan's Hand Visible.

The assertion is made that "J. Pierpont Morgan knows Harmon is all right because Morgan selected Harmon as receiver of the C. H. & D."

CRAIG BROTHERS

Henry Hagelganz Indicted McKinley Brothers Innocent

Action of Pickaway County Grand Jury a Decided Surprise in Case Teeming With Sensations and Surprises.

After four days' session and the examination of 62 witnesses, the Pickaway county grand jury, reported its findings Saturday, and Henry Hagelganz, who confessed to having brought about his sister's death three years ago, was indicted for first degree murder.

The cases against the McKinley

brothers, who are alleged to have carried out the wishes of Hagelganz and received blood money, were not indicted, much to the surprise of the prosecutor and practically everyone.

Coming on top of the action of the grand jury, Edward McKinley displayed signs of violent insanity, and both of the McKinley brothers are

being held until their sanity is proved beyond question. Their records indicate insanity, and they will probably be tried upon this charge without delay.

Mrs. Edna Luella Roebuck, the woman whose confession caused the arrest of the McKinley brothers and Hagelganz for the murder of Fannie Hagelganz on February 15, 1909, has disappeared and her whereabouts is a mystery. It is believed that her husband, whose absence has been the cause of a great deal of conjecture, is with her, and that she left for parts unknown after realizing that Hagelganz would probably be let out on bond and that her own father, who was implicated by her confession might do her harm.

A search for the body of Frank Coltz will now be conducted, and further sensational developments in

the remarkable case are expected at any time.

CRAIG BROTHERS

Henry Hagelganz Indicted McKinley Brothers Innocent

Action of Pickaway County Grand Jury a Decided Surprise
In Case Teeming With Sensations and Surprises.

After four days' session and the examination of 62 witnesses, the Pickaway county grand jury, reported its findings Saturday, and Henry Hagelganz, who confessed to having brought about his sister's death three years ago, was indicted for first degree murder.

The cases against the McKinley

brothers, who are alleged to have carried out the wishes of Hagelganz and received blood money, were not indicted, much to the surprise of the prosecutor and practically everyone.

Coming on top of the action of the grand jury, Edward McKinley displayed signs of violent insanity, and both of the McKinley brothers are

being held until their sanity is proved beyond question. Their records indicate insanity, and they will probably be tried upon this charge without delay.

Mrs. Edna Luella Roebuck, the woman whose confession caused the arrest of the McKinley brothers and Hagelganz for the murder of Fannie Hagelganz on February 15, 1909, has disappeared and her whereabouts is a mystery. It is believed that her husband, whose absence has been the cause of a great deal of conjecture, is with her, and that she left for parts unknown after realizing that Hagelganz would probably be let out on bond and that her own father, who was implicated by her confession might do her harm.

A search for the body of Frank Colts will now be conducted, and further sensational developments in

the remarkable case are expected at any time.

Oliver S. Nelson Will Be Candidate

Deputy Sheriff Oliver S. Nelson, who has very ably assisted his father Sheriff S. O. Nelson in the discharge of his official duties, Monday declared himself a candidate for the Republican nomination for sheriff. Deputy Sheriff Nelson is 38 years of age, married, spent 16 years in the public schools of the county, and numbers his friends by the thousands.

This brings the total number of avowed candidates for sheriff up to four, consisting of C. P. Luttrell, Willard Nelson, Oliver S. Nelson and James E. Jones.

LONDON'S NEW SCHOOL BUILDINGS

Our neighbors over in London, the county seat of Madison county, are building a new high school building and fixing up some of the grade buildings.

ALD has secured by courtesy of the Madison County Democrat the excellent picture of the new school buildings at London as they will appear when completed. The larger building shown in the picture is the new high school, the smaller is the remodeled primary building.

The large and beautiful campus was laid off nearly a century ago. The London school board has issued \$100,000 in bonds—the grounds and the old building which is being remodeled, as shown in the picture, were long since paid for. It is estimated now that London's

new high school building will cost in connection with the work of remodeling the primary building, in the neighborhood of \$115,000. Our school board with its \$100,000 bond issue has materially improved two grade buildings—Sunnyside and East Side—has bought a large tract of ground and erected a new grade

building complete—Cherry Hill—and has contracted for a high school building, all within the \$100,000 neighborhood. To complete our high school building, however, within the \$100,000 limit means, as explained in The Herald, some days ago, a building not complete.

London's completed high school building will be a pride and joy to young and old alike and the people of Washington are, although the city is considerably larger than London, deeply interested in the progress of the work on the new schools and anxious to see the work done according to the original and satisfactory plans.

TINY SPIRIT CLAIMED BY MASTER

Saturday afternoon about 5 o'clock came a telegram from Chicago shattering futile hopes aroused by an earlier telegram and making known the end of the desperate struggle to save the life of little Louis Howells Glascock, the baby son of Mr. and Mrs. Albert Glascock.

For 19 months the little one had been the joy of his home, a strong, beautiful boy, who smiled his way into the love of every one and whose garnering for the eternal garden leaves incomparable sorrow.

Three weeks ago the baby was taken ill at the home of his aunt, Mrs. Byron Gifford, of Chicago.

Mr. and Mrs. Glascock, with their two children, Georgiana and Lewis, and Mrs. Glascock's parents, Mr. and Mrs. J. L. Rothrock, had gone to Chicago to spend Christmas with the Giffords.

Mr. Glascock returned here a few days after Christmas, and Mrs. Glascock had purchased her ticket to return the first of the year, when the baby was taken ill. He had not seemed well for several days and physicians said that the trouble had been coming on for some little time.

His condition became alarming and Mr. Glascock was summoned to Chicago, remaining until the baby was pronounced out of danger.

Last Thursday Mr. Glascock was re-summoned to find the little one in the throes of a new disease, swollen glands, leading to blood poisoning. The little girl Georgiana, had been quite ill with the same trouble. Every effort of skilled physician

and expert nursing was secured, but in the child's weakened condition was unavailing, and the baby yielded back to its maker the little life that had bloomed with such sweetness for so short a time.

Mr. and Mrs. Glascock and Mrs. Byron Gifford started home with the baby Saturday evening. The little daughter, Georgiana, was too ill to make the trip and Mrs. Rothrock and Mr. Gifford remained with her.

The trip home was made doubly hard by a late train, so that B. & O. connection was missed at Cincinnati and the travel had to be extended all day Sunday, going round by Dayton to reach here over the C. H. & D. Sunday night at 6:12.

Mr. J. L. Rothrock and Mr. Chas. Bell when they found the train had been missed at Dayton, went to Columbus and reached Dayton by traction to accompany them home.

It was a sad home coming and waiting relatives and friends could do little to mitigate its sorrow.

Mr. and Mrs. Glascock have had the deepest sympathy of the community during their weeks of anxious watching, and in the heart-breaking culmination and sorrowful trip home.

Funeral services will be held at the residence on Temple street, Tuesday morning at 10 o'clock. Rev. T. W. Locke officiates.

The casket will be open at the house this evening and tomorrow morning until 9 o'clock.

J. H. BALMER AND HIS KAFFIR BOYS.

Some years ago when President Roosevelt (then governor) appeared at Chautauque, N. Y., he broke all records for the size of audiences until the next day, when a company of five Kaffir Boys from South Africa, directed by J. H. Balmer and assisted by Miss Elsie Clark, appeared and again broke a record, which has not been exceeded since. This company has made repeated appearances before the late Queen Victoria, the late King Edward, King George, many of the nobility of England, the late Wm. E. Gladstone, Cecil John Rhodes and the ambassadors to Great Britain. Everywhere in his country they have been greeted with immense audiences and accorded high praise.

Mr. Balmer spent more than twenty years in South Africa and is a man of rare musical knowledge and taste, is a genius in the training of boys' voices, and blends his own rich bass voice with the boys'.

The boys make their platform appearance in picturesque garb, typical of various races and given in native dialect, but most of the program is in English. Some of the most weird songs imaginable will be given.

Miss Elsie Clark, born and brought up in South Africa, and whose parents were among the pioneer missionaries of that country, is the skilled pianist of the company. She wears a magnificent and picturesque African costume. Her descriptions of life in South Africa, of the habits and customs of the natives, are charming.

This wonderful organization, the most wonderful, we believe, that has ever been brought to our city, has entertained more than two million people in over 3,000 cities, towns and Chautauques of Great Britain, Canada and the United States. It is another example of what the organized Lyceum can bring to our people—far away South Africa is not far enough away to escape the progressive Lyceum manager and it sends to us its best talent—five singing Kaffir boys, each from a different tribe.

A CHANGE—PRESTO.

The announcement of Dr. R. M. Hughey that he will again contend for the Republican nomination for representative to Congress from this district calls to mind several matters of more than general interest.

First and foremost it calls to mind the remarkably strong campaign Dr. Hughey made for this same nomination two years ago against the, at that time supposedly unbeatable wheel horse of old line Republican politics.

Dr. Hughey made a vigorous and able campaign and against odds, wound up defeated by only a narrow margin.

Dr. Hughey made many acquaintances in that campaign and made many political friends. He learned a great deal about practical politics of the latest style and the Republican leaders of the district learned that there were a far larger number of party voters demanding a change than they had ever dreamed of.

Dr. Hughey's announcement brings forcibly to the front the fact that if the friends of two years ago return to do battle under the physician's banner, he will be exceedingly likely to land the nomination.

This in connection with the fact that Hon. J. D. Post, the present representative to Congress, will walk off with the Democratic nomination for a second term in easy fashion reminds us that until the fall of 1910, with one exception, the campaign of 1910, when William B. Rogers was the Democratic nominee, no Fayette county man had secured a nomination for Congress since 1876, when the late Hon. Mills Gardner was nominated by the Republicans and elected.

We have had several times in that long span of years some favorite or favored sons who secured Fayette county's delegation, but none of them ever succeeded in getting his name on the party ticket as a candidate.

All of which reminds us again that since Dr. Hughey and other newcomers, representative of a new order of things political, concluded in 1910 to put their belief, that the people were ready for a change, to the practical test, Fayette county has gotten herself pretty prominently on to the congressional map.

The smallest county in the congressional district, both in number of voters and territorial extent, denied under the old convention day regime the honor of a nominee, it remained for this political pigmy under the old way to be transformed into a giant under the new order of things.

From being the constantly ignored county of the district for more than a third of a century—presto—Fayette county has suddenly blossomed forth into the real live store-room of the new style candidates.

Placidly gliding along for years with no home man to vote for—never a chance to land a nomination, the voters of this county in this year, A. D. 1912, stand an excellent chance to have both candidates "for Congress" chosen from this county.

A splendid feeling satisfying to the local pride would result if all this comes to pass as per schedule of both Mr. Post and Dr. Hughey, but rather discouraging to the candidates' hope of going out of the county with a big vote on account of that local pride.

The May primaries promise much of interest to our Fayette county people and the general election next fall more of interest, if Dr. Hughey's friends in the 1910 campaign get busy and bring home the coveted certificate of nomination to him.

Bring Farming Nearer to the City

It Would Tend to Lessen Cost of Living

By the Secretary of Agriculture

I CANNOT for the life of me see why there is not more of the material people have to eat raised NEAR THE CENTERS OF POPULATION that consume it.

TAKE LAND AROUND NEW YORK. THERE THEY ARE CLOSE TO ONE OF THE BIGGEST MARKETS IN THE WORLD, AND THERE IS NO REASON WHY THE PEOPLE THERE SHOULD NOT RAISE ALL THE POTATOES THEY WANT INSTEAD OF IMPORTING THEM FROM SCOTLAND OR ANYWHERE ELSE.

If people would only understand it they can BUY FARM LAND CHEAPER within an hour of New York or any other big eastern city than they can buy it in Iowa. This is true in New York and New Jersey and Pennsylvania and Maryland and throughout the east.

Of course the land needs attention and fertilizers to put it in condition for raising good crops, but when this is once done the farmer is CLOSE TO A CONSTANT MARKET.

Under a costly canopy
The village blacksmith sits.
Before him is a touring car,
Broken to little bits.
And the owner and the chauffeur, too
Have almost lost their wits.

The village blacksmith smiles with glee

As he lights his fat cigar,
He tells his helper what to do
To straighten up the car.
And the owner and the chauffeur, too,
Stand humbly where they are.

The village blacksmith puffs his weed
And smiles a smile of cheer.
And while his helpers pump the tires

And monkey with the gear.
The owner and the chauffeur, too,
Stand reverently near.

Behind the village Blacksmith is
The portal of his shop.

The shop is very large in size,
With a tiled roof on top.
And the owner and the chauffeur, too,
At it, were glad to stop.

The children going home from school
Look in at the open door.

They like to see him make his bills
And hear the owners roar,
And the chauffeurs weep as they declare
They never paid that before.

He goes each morning to the bank
And salts away his cash.

A high silk hat and long frock coat
Help him to cut a dash.
But the owner and the chauffeur, too,
Their teeth all vainly gnash.

The chestnut tree long since has died
The smith does not repine.

His humble shop has grown into
A building big and fine,
And it bears "Garage" above the door
On a huge electric sign.

Machinery Oiled And Ready

Delegates to Constitutional Convention Ready For Grand.

Columbus, O., Jan. 22.—Having spent the first two weeks of its existence in getting the machinery oiled and in good working order, Ohio's constitutional convention will this week settle down to the real work of considering the 37 proposals already in and the many others that are on the way. As the real work of the convention will be done in the committee rooms, it is highly probable that a large majority of the propositions presented will never be discussed in the main body of delegates. The convention will hold a short session tonight and tomorrow will get down to business.

Killed In Play

Girl Drops Dead When "Unloaded" Revolver Goes Off.

Cleveland, O., Jan. 22.—Frances Wilgtrach, 17, was killed in a mock duel. In a room full of young people she and Henry Leufsky caught up revolvers that had been placed on the table and aimed at each other. The girl's weapon was not loaded but the man's was, though he did not know it. The girl received a bullet through the eye and brain and fell dead.

Beheads Negroes With Ax

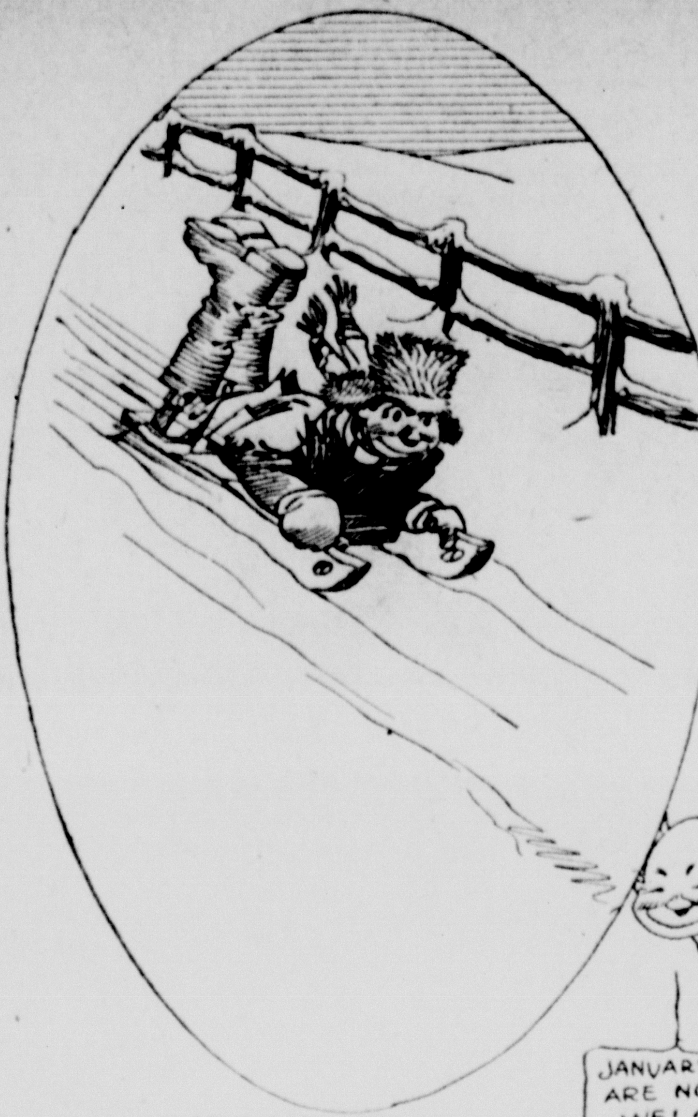

Family of Five Wiped Out by Person With Mania.

New Orleans, Jan. 22.—Feliz Broussard, his wife and their three children, were found by neighbors, their heads hacked by an ax. They were negroes, and the negro population of the rice belt of southwestern Louisiana is shivering in fear of the maniac, who has, within the past few weeks, taken the lives of 15 of their race, each time in this same manner. There is no clew, but on the door was scribbled: "When he maketh the inquisition for blood, he forgetteth not the human live."

FOLEY'S HONEY AND TAR COMPOUND "CURES IN EVERY CASE."

Mr. Jas. McCaffery, Mgr. of the Schlitz Hotel, Omaha, Neb., recommends Foley's Honey and Tar Compound, because it cures in every case. "I have used it myself and I have recommended it to many others who have since told me of its great curative power in diseases of the throat and lungs." Foley's Honey and Tar Compound is a reliable family medicine. Give it to your children, and take it yourself when you feel a cold coming on. It checks and cures coughs, colds and croup and prevents bronchitis and pneumonia. Refuse substitutes. Blackmer & Tanquary.

A CHANGE—PRESTO.

The announcement of Dr. R. M. Hughey that he will again contend for the Republican nomination for representative to Congress from this district calls to mind several matters of more than general interest.

First and foremost it calls to mind the remarkably strong campaign Dr. Hughey made for this same nomination two years ago against the, at that time supposedly unbeatable wheel horse of old line Republican politics.

Dr. Hughey made a vigorous and able campaign and against odds, wound up defeated by only a narrow margin.

Dr. Hughey made many acquaintances in that campaign and made many political friends. He learned a great deal about practical politics of the latest style and the Republican leaders of the district learned that there were a far larger number of party voters demanding a change than they had ever dreamed of.

Dr. Hughey's announcement brings forcibly to the front the fact that if the friends of two years ago return to do battle under the physician's banner, he will be exceedingly likely to land the nomination.

This in connection with the fact that Hon. J. D. Post, the present representative to Congress, will walk off with the Democratic nomination for a second term in easy fashion reminds as that until the fall of 1910, with one exception, the campaign of 1909, when William B. Rogers was the Democratic nominee, no Fayette county man had secured a nomination for Congress since 1876, when the late Hon. Mills Gardner was nominated by the Republicans and elected.

We have had several times in that long span of years some favorite or favored sons who secured Fayette county's delegation, but none of them ever succeeded in getting his name on the party ticket as a candidate.

All of which reminds us again that since Dr. Hughey and other newcomers, representative of a new order of things political, concluded in 1910 to put their belief, that the people were ready for a change, to the practical test, Fayette county has gotten herself pretty prominently on to the congressional map.

The smallest county in the congressional district, both in number of voters and territorial extent, denied under the old convention day regime the honor of a nominee, it remained for this political pigmy under the old way to be transformed into a giant under the new order of things.

From being the constantly ignored county of the district for more than a third of a century—presto—Fayette county has suddenly blossomed forth into the real live store-room of the new style candidates.

Placidly gliding along for years with no home man to vote for—never a chance to land a nomination, the voters of this county in this year, A. D. 1912, stand an excellent chance to have both candidates "for Congress" chosen from this county.

A splendid feeling satisfying to the local pride would result if all this comes to pass as per schedule of both Mr. Post and Dr. Hughey, but rather discouraging to the candidates' hope of going out of the county with a big vote on account of that local pride.

The May primaries promise much of interest to our Fayette county people and the general election next fall more of interest, if Dr. Hughey's friends in the 1910 campaign get busy and bring home the coveted certificate of nomination to him.

Bring Farming Nearer to the City

It Would Tend to Lessen Cost of Living

By the Secretary of Agriculture

I CANNOT for the life of me see why there is not more of the material people have to eat raised NEAR THE CENTERS OF POPULATION that consume it.

TAKE LAND AROUND NEW YORK. THERE THEY ARE CLOSE TO ONE OF THE BIGGEST MARKETS IN THE WORLD. AND THERE IS NO REASON WHY THE PEOPLE THERE SHOULD NOT RAISE ALL THE POTATOES THEY WANT INSTEAD OF IMPORTING THEM FROM SCOTLAND OR ANYWHERE ELSE.

If people would only understand it they can BUY FARM LAND CHEAPER within an hour of New York or any other big eastern city than they can buy it in Iowa. This is true in New York and New Jersey and Pennsylvania and Maryland and throughout the east.

Of course the land needs attention and fertilizers to put it in condition for raising good crops, but when this is once done the farmer is CLOSE TO A CONSTANT MARKET.

DOINGS IN OHIO

What People in the Cities and Towns in the Buckeye State Are Doing and Saying---Notes of Interest.

GODDESS OF FREEDOM'S PAL

Al Porch, the old rigger at the capitol building in Washington, is the most intimate associate of her majesty, the Goddess of Freedom, who stands upon the very dome of this building, which harbors the national congress. There are electric wires to be rigged on the bonnet of the goddess and occasionally she is to be given a bath and a coat of paint. When these necessities arise it is Al Porch who is sent aloft to meet this difficult situation. This mounting into the very presence of Freedom is no mean task. Rarely is it accomplished in any other method than that of scaling ladders. For 60 feet before the top of the statue is reached the ascent must be made on the outside ladders. This is true when anyone but Al Porch makes the ascent. But the rigger has long made the very pinnacle of the capitol his playground. He has practically lived here for 43 years. The upper dome of the capitol has come to be a passion with him. A spry little man of 64, he runs about these great heights as ordinary men walk about the streets. He is to the capitol what the famous hunchback was to Notre Dame. Once he fell from a position at the foot of the goddess and was dashed from projection to projection down the statue base. Altogether he fell 50 feet and with one arm broken, clung with his legs dangling over the abyss below, which would have meant certain death if his hold had given way. Yet later he climbed one after another of the pillars that support the statue in an attempt to capture an escaped canary bird, and finally succeeded. Many times since he has scaled the statue to its very top without the help of a ladder. He does this by working himself into the folds of the garments of Freedom and so braces himself as to get impalpable holds.

NO CAUSE TO DOUBT

A Statement of Facts Backed by a Strong Guarantee

We guarantee immediate and positive relief to all sufferers from constipation. In every case where our remedy fails to do this we will return the money paid us for it. That's a frank statement of facts, and we want you to substantiate them at our risk.

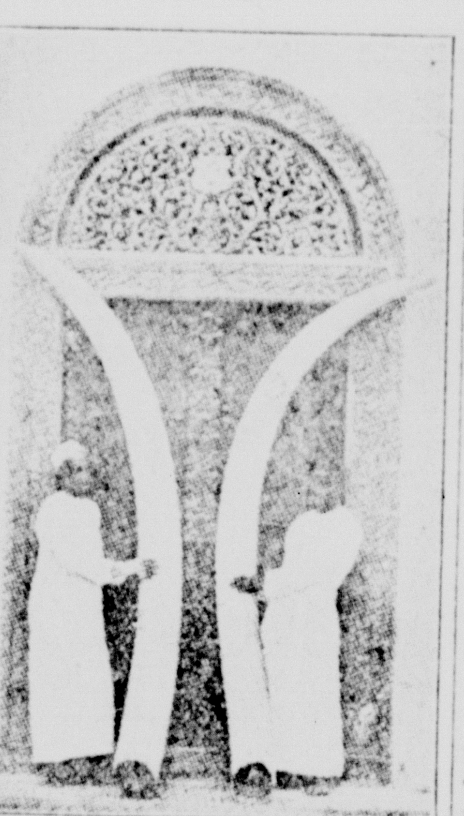

Reckall Orderlies are eaten just like candy, are particularly prompt and agreeable in action, may be taken at any time, day or night; do not cause diarrhoea, nausea, griping, excessive looseness, or other undesirable effects. They have a very mild but positive action upon the organs with which they come in contact, apparently acting as a regulative tonic upon the relaxed muscular coat of the bowel, thus overcoming weakness, and aiding to restore the bowels to more vigorous and healthy activity.

Reckall Orderlies are unsurpassable and ideal for the use of children, old folks and delicate persons. We cannot too highly recommend them to all sufferers from any form of constipation and its attendant evils. That's why we back our faith in them with our promise of money back if they do not give entire satisfaction. Three sizes: 12 tablets 16 cents, 36 tablets 25 cents and 80 tablets 50 cents. Remember, you can obtain Reckall Remedies in Washington only at our store, The Reckall Store, Blackmer & Tanquary.

THE DANGER OF LA GRIPPE

Is its fatal tendency to pneumonia. To cure your la grippe coughs take Foley's Honey and Tar Compound. R. E. Fisher, Washington, Kas., says: "I was troubled with a severe attack of lagrippe and nothing I used did me any good and I was threatened with pneumonia. A friend advised me to use Foley's Honey and Tar Compound and I got some at once. I was relieved from the very first. By the time I had taken three bottles my la grippe was gone. I believe Foley's Honey and Tar Compound to be the best medicine I ever used and always keep a bottle with me." Blackmer & Tanquary.

MAGNIFICENT PAIR OF TUSKS

Considering the growing scarcity of good ivory, it is safe to say that many a maker of billiard balls will envy the owner of the magnificent pair of elephant tusks here illustrated. But their possessor lives in Zanzibar, a long way off. These tusks are half as high again as a man.

SOME STRANGE TIMEKEEPERS

To ascertain the time at night the Apache Indians employed a gourd on which the stars of the heavens were marked. As the constellations rose in the sky, the Indian referred to his gourd and found out the hour. By turning the gourd around he could tell the order in which the constellations might be expected to appear.

The hill people of Assam reckon time and distance by the number of quids of betel nuts chewed. It will be remembered how, according to Washington Irving, the Dutch colonial assembly was invariably dismissed at the last puff of the third pipe of tobacco of Governor Wouter Van Twiller.

A Montagnis Indian of Canada will set up a tall stick in the snow when traveling ahead of friends who are to follow. He marks with his foot the line of shadow cast, and by the change in the angle of the shadow the oncoming party can tell, on arriving at the spot, about how far ahead the leader is. Harper's Weekly.

MUSIC AND LONGEVITY

A Dr. Rogers has been studying the effect of wind instruments on the life of musicians. The average life of the wind instrument artist is 63, while that of others is 62. Thirty-four per cent of the former category attain 70 years. Performers on the flute in Dr. Rogers' "echelle de longevite" reach on the average the age of 61, while the hautbois executant lives two years longer. Buglers go two years better, and the clarinet player lives till he is 65. He of the cornet only falls the allotted span by one year. The ophicleide artist beats them all. His time of life is from 73 to 89. There should be no hesitation after this.

CURIOUS AUSTRIAN CUSTOM

Flogging the dummy" is a curious custom kept up by the villagers of Austria. A dummy is dressed up in grotesque fashion, and is called the "Luzelwife." It is taken from house to house by the troupe of grotesquely dressed musicians and before each house it is flogged. Then the band plays till the householders emerge with cakes and wine for the crowd.

Girl Teacher Bluffed Out.

Columbus, O., Jan. 22.—Fire Marshal Zuber is hot on the trail of the party who set fire to the Roscoe schoolhouse New Year's night and wrote threatening letters to Fred Landerman, where Miss Osborne of this city, the teacher, boarded. It is believed that opposition to an outside teacher and a tuition system was the cause of the incendiarism. Miss Osborne has returned to her home and refuses to complete the term.

Charge Sexton With Shortage.

Columbus, O., Jan. 22.—The prosecuting attorney of Darke county will be asked by the state bureau of public accounting to bring suit against W. H. Townsend, sexton of the Abbottsville cemetery, Van Buren township, Darke county, who is accused of having diverted to his own use \$3,663.25 collected from the sale of cemetery lots between the years 1894 and 1910.

Miller Reports on Textbooks.

Columbus, O., Jan. 22.—In a report of his investigation of the schoolbook question, State School Commissioner Miller recommended to the state schoolbook commission, composed of the governor, the secretary of state and the commissioner, the adoption of the uniform state school textbook plan, at least for villages and townships.

Papers Change Hands.

Cambridge, O., Jan. 22.—Edwin L. McMillen, owner of the Belmont Chronicle, today took charge of the Guernsey Times, daily, and the Republican Press, weekly, which he recently purchased.

Will Celebrate Centennial.

Findlay, O., Jan. 22.—One hundred years ago Colonel James Findlay marched through this country on his way to Detroit, during the war of 1812, and on the south banks of the Blanchard river erected a blockhouse which immediately took the name of Fort Findlay, where for three years a detachment of soldiers were stationed. In commemoration of this event the people of Findlay will observe the centennial anniversary of the founding of Fort Findlay in September.

Joke Nearly Fatal.

Cincinnati, O., Jan. 22.—With both feet and hands frozen, half starved and semi-insane from his physical condition, James Fry, a 17-year-old boy, was found in a freight car here. He had been locked in the car last Tuesday at Peru, Ind., by practical jokers. When the patrolmen who found him tried to feed him a roll, Fry endeavored to swallow it whole. He was taken to the city hospital. The physicians hold out little hope for his recovery.

Editors Will Meet Taft.

Columbus, O., Jan. 22.—In order to avail himself of the opportunity to shake hands with and greet editors of Ohio Republican papers, President Taft has decided to extend by a few hours his visit to this city Jan. 30, when he comes to assist in the dedication of the remodeled federal building. He will remain over night, and on the morning of Jan. 31 will hold a reception at the Southern hotel for editors who have been saying nice things about his administration.

Hogan Submits Report to Board of Administration.

Columbus, O., Jan. 22.—Attorney General Hogan made public a letter to the state board of administration in which he outlines the results of his penitentiary probe relative to fish purchases. He declares that there is no evidence of criminal acts on the part of former Steward C. B. Randall of Chillicothe, who is given practical exoneration.

Subjects other than financial affairs are not mentioned. The attorney general finds that there had been dishonesty, though, he says, nothing to show criminal intent.

Hogan Submits Report to Board of Administration.

Columbus, O., Jan. 22.—Attorney General Hogan made public a letter to the state board of administration in which he outlines the results of his penitentiary probe relative to fish purchases. He declares that there is no evidence of criminal acts on the part of former Steward C. B. Randall of Chillicothe, who is given practical exonerated.

Subjects other than financial affairs are not mentioned. The attorney-general finds that there had been criminality, though, he says, nothing to show criminal intent.

Regular meeting of Royal Chapter No. 29 O. E. S., Monday evening at 7 o'clock, Odd Fellows' hall.

VERA V. VEAHL, W. M.

MAE S. RODGERS, Secy.

THE FIRST
Al Porch, the old rigger at the hotel building in Washington, is the most intimate associate of her majesty, the Goddess of Freedom, who stands upon the very dome of this building, which harbors the national congress. There are electric wires to be rigged on the bonnet of the goddess and occasionally she is to be given a bath and a coat of paint. When these necessities arise it is Al Porch who is sent aloft to meet this difficult situation. This mounting into the very presence of Freedom is no mean task. Rarely is it accomplished in any other method than that of scaling ladders. For 60 feet before the top of the statue is reached the ascent must be made on the outside ladders. This is true when anyone but Al Porch makes the ascent. But the rigger has long made the very pinnacle of the capitol his playground. He has practically lived here for 43 years. The upper dome of the capitol has come to be a passion with him. A spry little man of 64, he runs about these great heights as ordinary men walk about the streets. He is to the capitol what the famous hunchback was to Notre Dame. Once he fell from a position at the foot of the goddess and was dashed from projection to projection down the statue base. Altogether he fell 50 feet and with one arm broken, clung with his legs dangling over the abyss below, which would have meant certain death if his hold had given way. Yet later he climbed one after another of the pillars that support the statue in an attempt to capture an escaped canary bird, and finally succeeded. Many times since he has scaled the statue to its very top without the help of a ladder. He does this by working himself into the folds of the garments of Freedom and so braces himself as to get inextricable holds.

MAGNIFICENT PAIR OF TUSKS

Considering the growing scarcity of good ivory, it is safe to say that many a maker of billiard balls will envy the owner of the magnificent pair of elephant tusks here illustrated. But their possessor lives in Zanzibar, a long way off. These tusks are half as high again as a man.

SOME STRANGE TIMEKEEPERS

To ascertain the time at night the Apache Indians employed a gourd on which the stars of the heavens were marked. As the constellations rose in the sky, the Indian referred to his gourd and found out the hour. By turning the gourd around he could tell the order in which the constellations might be expected to appear.

The hill people of Assam reckon time and distance by the number of quids of betel nuts chewed. It will be remembered how, according to Washington Irving, the Dutch colonial assembly was invariably dismissed at the last puff of the third pipe of tobacco of Governor Wouter Van Twiller.

A Montagnais Indian of Canada will set up a tall stick in the snow when traveling ahead of friends who are to follow. He marks with his foot the line of shadow cast, and by the change in the angle of the shadow the oncoming party can tell, on arriving at the spot, about how far ahead the leader is.—Harper's Weekly.

MUSIC AND LONGEVITY

A Dr. Rogers has been studying the effect of wind instruments on the life of musicians. The average life of the wind instrument artist is 63, while that of others is 62. Thirty-four per cent. of the former category attain 70 years. Performers on the flute in Dr. Rogers' "échelle de longévité" reach on the average the age of 61, while the hautbois executant lives two years longer. Bagpipers go two years better, and the clarinet player lives till he is 65. He of the cornet only falls the allotted span by one year. The ophicleide artist beats them all. His time of life is from 75 to 80. There should be no hesitation after this.

CURIOUS AUSTRIAN CUSTOM

"Flogging the dummy" is a curious custom kept up by the villagers of Austria. A dummy is dressed up in grotesque fashion, and is called the "Luzelwife." It is taken from house to house by the troupe of grotesquely dressed musicians and before each house it is flogged. Then the band plays till the householders emerge with cakes and wine for the crowd.

Absolutely fire proof business and office building in Ohio is the new Rankin Building, at 22 West Gay street, Columbus, Ohio, the home of The Buckeye State Building and Loan Company. No wood was used in its construction. Not a carpenter employed. All desks, tables and chairs are iron. The doors and windows are metal. Shades are asbestos. Safe deposit boxes for rent. Assets \$5,200,000. Five per cent paid on time deposits. Write for booklets.

NO CAUSE TO DOUBT

A Statement of Facts Backed by a Strong Guarantee

We guarantee immediate and positive relief to all sufferers from constipation. In every case where our remedy fails to do this we will return the money paid us for it. That's a frank statement of facts, and we want you to substantiate them at our risk.

Reckall Orderlies are eaten just like candy, are particularly prompt and agreeable in action, may be taken at any time, day or night; do not cause diarrhoea, nausea, griping, excessive looseness, or other undesirable effects. They have a very mild but positive action upon the organs with which they come in contact, apparently acting as a regulative tonic upon the relaxed muscular coat of the bowel, thus overcoming weakness, and aiding to restore the bowels to more vigorous and healthy activity.

Reckall Orderlies are unsurpassable and ideal for the use of children, old folks and delicate persons. We cannot too highly recommend them to all sufferers from any form of constipation and its attendant evils. That's why we back our faith in them with our promise of money back if they do not give entire satisfaction. Three sizes: 12 tablets 10 cents, 36 tablets 25 cents and 80 tablets 50 cents. Remember, you can obtain Reckall Remedies in Washington only at our store.—The Reckall Store, Blackmer & Tanquary.

THE DANGER OF LA GRIPPE

Is its fatal tendency to pneumonia. To cure your la grippe coughs take Foley's Honey and Tar Compound. R. E. Fisher, Washington, Kas., says: "I was troubled with a severe attack of lagrippe and nothing I used did me any good and I was threatened with pneumonia. A friend advised me to use Foley's Honey and Tar Compound and I got some at once. I was relieved from the very first. By the time I had taken three bottles my la grippe was gone. I believe Foley's Honey and Tar Compound to be the best medicine I ever used and always keep a bottle with me." Blackmer & Tanquary.

Man Was Drunk Borrowed Horse

Becoming intoxicated and "borrowing" the first horse and buggy that he can lay his hands upon promises to get Andy Herron into serious trouble unless he desists.

Friday night Herron, who is a resident of Circleville, became intoxi-

cated and unhitched a horse from in front of a place of business in Circleville and drove about the country until late, causing the owner to have the police take up the case and telephone to adjoining cities, including this place, in search of the man.

He was eventually located in Circleville and locked up, later being bound over to court in the sum of \$300 for unlawfully appropriating other people's property and converting it to his own use.

"Every Little Olive Tablet Has a Movement All Its Own"

Your doctor will tell you ninety per cent. of all sickness comes from inactive bowels and liver. Dr. Edwards, a well-known physician in Portsmouth, Ohio, perfected a vegetable compound mixed with olive oil, to act on the liver and bowels, which he gave to his patients for years.

Olive Tablets, the substitute for calomel, are gentle in their action, yet always effective. They bring about that exuberance of spirit, that natural buoyancy which should be enjoyed by everyone, by toning up the liver and clearing the system of harmful impurities.

Madden Returns And Gets Ousted

Frank Madden, colored, who has been in trouble of various kinds time and again and under suspended sentence to remain out of the city, returned Sunday and on Monday morning members of his family appeared before Mayor Smith and registered a complaint that he had been mistreating them, and accused him of gathering up chickens belonging to his wife and disposing of them.

His wife was in tears and her story was anything but a pleasant one. Mayor Smith notified Madden that his presence here would be tolerated until four o'clock Monday evening, and if he did not walk straight during that time, he would be gathered in and sent to the works.

Madden later appeared before Mayor Smith and announced his intention of leaving the city on the 10:33 B. & O.

FOLEY KIDNEY PILLS

always give satisfaction because they always do the work. J. T. Shelnut, Bremen, Ga., says: "I have used Foley Kidney Pills with great satisfaction and found more relief from their use than from any other kidney medicine, and I've tried almost all kinds. I can cheerfully recommend them to all sufferers for kidney and bladder trouble." Foley Kidney Pills will cure any case of kidney or bladder trouble not beyond the reach of medicine. No medicine can do more. Blackmer & Tanquary.

Plan Brick Plant Plenty of Clay

A vein of clay, used in the manufacture of a high grade of brick, has been found near Chillicothe within a half mile of the C. H. & D. railroad, and plans are now on foot to lay a branch track to the site and erect a modern brick plant, is on foot.

The vein runs from 19 to 18 feet and is several hundred acres in extent. The profit in converting the clay into brick is estimated at many hundreds of thousands of dollars.

Charles Durham, Lovington, Ill., has succeeded in finding a positive cure for bed wetting. "My little boy wet the bed every night clear through on the floor. I tried several kinds of kidney medicine and I was in the drug store looking for something different to help him when I heard of Foley Kidney Pills. After he had taken them two days we could see a change and when he had taken two-thirds of a bottle he was cured. That is about six weeks ago and he has not wet in bed since." Blackmer & Tanquary.

Fire Interrupts Services In Bainbridge M. E. Church

\$20,000 Church Saved From Total Destruction by Heroic Work of Congregation Assembled for Worship.

Mr. and Mrs. H. C. Shoop of this city were called to Bainbridge to attend the funeral of General Harrison Nieceley Sunday, and just before the funeral services, which were held in the Methodist Episcopal church with former pastor of the Jeffersonville M. E. church, Rev. G. D. Clifford, the church caught fire and was saved from destruction by the hardest efforts of those in attendance.

The large church, which is a beautiful \$20,000 structure erected six years ago, is heated by a furnace, and a defective pipe ignited some of the woodwork in the basement, and during the services the main auditorium quickly filled with smoke and the congregation hurriedly left the building and volunteers fought the fire which ate its way through the floor and within a few minutes would have been beyond control.

After a quarter-hour of hard work the fire was extinguished and shortly afterward the delayed funeral services were held in the structure.

Three previous structures have each been destroyed by flames, and the narrow escape of the present church will cause greater precaution against fire to be immediately taken.

The wreck occurred near Kimundy, Ill., at an early hour this morning.

Noted Criminal Attorney Ulric Sloane Answers Call

Death Occurs in Cincinnati and as Predicted by Himself Years Ago—Remarkable Record as Defender of Criminals.

At the age of 61 Ulric Sloane, one of Ohio's most noted criminal lawyers, died in Cincinnati Sunday after several weeks' critical illness, and in accord with the prediction that he has made for many years that he would die in the 61st year of his life.

Ulric Sloane's record as a criminal lawyer is little short of wonderful, and out of some 200 noted murder cases, only one of his clients went to the electric chair, while in a remarkably large number of instances his clients were set free.

Born in Hillsboro where his father was Common Pleas judge for many years, he studied hard and at 16 was teaching school, being admitted to the bar in Illinois at the age of 19 years. For twenty years past he has made his home in Columbus. He was for a time a law partner of Senator Foraker.

In cases relating to this city, Ulric Sloane's two most noted criminal cases were those of Col. A. B. Colt and George Kirby.

Funeral services will be held and burial will take place in his home town of Hillsboro, where his ancestors are interred.

POLICE FIND "EVIDENCE" BUT BIRDS HAD FLOWN

Receiving a tip that there was "something doing" in the "Red Onion" building late Saturday night, the police kept a watch on the place for some time and about two o'clock Sunday morning made a raid in search of gamblers and their outfit.

In one of the rooms under control of Joe Tapsico there was evidence that something had been doing, according to the police, but the birds had flown and only a gaming table with chairs about it, four empty quart bottles and other "signs" remained to tell the story.

There was a strong denial that a game had been in progress, but the police believe they were just a few moments too late to make a haul, and that in all probability it had been tipped off that indications pointed to a raid.

Chief McCoy and Patrolmen Cogswell and Bell took part in the raid. Tapsico is one of those who returned under suspended sentence to the city, and was placed under probation.

New Soda Fountain Largest in City

The Blackmer & Tanquary drug store has just completed the installation of a splendid new soda fountain, largest in the city.

The new fountain is constructed from a strictly sanitary point, and is handsome in detail, possessing many new features. It is 12 feet in length and constructed of Carara and opal onyx glass, with bronze ornaments and German silver and nickel trimmings.

It contains 12 syrups, 2 crushed fruits and 3 draft arms, with a new feature in the "clear counter" service. The massive back-bar with its mammoth mirror adds beauty to the big fountain.

'Every Little Olive Tablet Has a Movement All Its Own'

Your doctor will tell you ninety per cent. of all sickness comes from inactive bowels and liver. Dr. Edwards, a well-known physician in Portsmouth, Ohio, perfected a vegetable compound mixed with olive oil, to act on the liver and bowels, which he gave to his patients for years.

Olive Tablets, the substitute for calomel, are gentle in their action, yet always effective. They bring about that exuberance of spirit, that natural buoyancy which should be enjoyed by everyone, by toning up the liver and clearing the system of harmful impurities.

Madden Returns And Gets Ousted

Frank Madden, colored, who has been in trouble of various kinds time and again and under suspended sentence to remain out of the city, returned Sunday and on Monday morning members of his family appeared before Mayor Smith and registered a complaint that he had been mistreating them, and accused him of gathering up chickens belonging to his wife and disposing of them.

His wife was in tears and her story was anything but a pleasant one. Mayor Smith notified Madden that his presence here would be tolerated until four o'clock Monday evening, and if he did not walk straight during that time, he would be gathered in and sent to the workhouse.

Madden later appeared before Mayor Smith and announced his intention of leaving the city on the 19:23 B. & O.

FOLEY KIDNEY PILLS

always give satisfaction because they always do the work. J. T. Shelcut, Bremen, Ga., says: "I have used Foley Kidney Pills with great satisfaction and found more relief from their use than from any other kidney medicine, and I've tried almost all kinds. I can cheerfully recommend them to all sufferers for kidney and bladder trouble." Foley Kidney Pills will cure any case of kidney or bladder trouble not beyond the reach of medicine. No medicine can do more. Blackmer & Tanquary.

Plan Brick Plant Plenty of Clay

A vein of clay, used in the manufacture of a high grade of brick, has been found near Chillicothe within a half mile of the C. H. & D. railroad, and plans are now on foot to lay a branch track to the site and erect a modern brick plant, is on foot.

The vein runs from 19 to 18 feet and is several hundred acres in extent. The profit in converting the clay into brick is estimated at many hundreds of thousands of dollars.

Charles Durham, Lovington, Ill., has succeeded in finding a positive cure for bed wetting. "My little boy wet the bed every night clear through on the floor. I tried several kinds of kidney medicine and I was in the drug store looking for something different to help him when I heard of Foley Kidney Pills. After he had taken them two days we could see a change and when he had taken two-thirds of a bottle he was cured. That is about six weeks ago and he has not wet in bed since." Blackmer & Tanquary.

Fire Interrupts Services In Bainbridge M. E. Church

\$20,000 Church Saved From Total Destruction by Heroic Work of Congregation Assembled for Worship.

Mr. and Mrs. H. C. Shoop of this city were called to Bainbridge to attend the funeral of General Harrison Niceley Sunday, and just before the funeral services, which were held in the Methodist Episcopal church with former pastor of the Jeffersonville M. E. church, Rev. G. D. Clifford, the church caught fire and was saved from destruction by the hardest efforts of those in attendance.

The large church, which is a beautiful \$20,000 structure erected six years ago, is heated by a furnace, and a defective pipe ignited some of the woodwork in the basement, and

during the services the main auditorium quickly filled with smoke and the congregation hurriedly left the building and volunteers fought the fire which ate its way through the floor and within a few minutes would have been beyond control.

After a quarter-hour of hard work the fire was extinguished and shortly afterward the delayed funeral services were held in the structure.

Three previous structures have each been destroyed by flames, and the narrow escape of the present church will cause greater precaution against fire to be immediately taken.

Noted Criminal Attorney Ulric Sloane Answers Call

Death Occurs in Cincinnati and as Predicted by Himself Years Ago—Remarkable Record as Defender of Criminals.

At the age of 51 Ulric Sloane, one of Ohio's most noted criminal lawyers, died in Cincinnati Sunday after several weeks' critical illness, and in accord with the prediction that he has made for many years that he would die in the 51st year of his life.

Ulric Sloane's record as a criminal lawyer is little short of wonderful, and out of some 200 noted murder cases, only one of his clients went to the electric chair, while in a remarkably large number of instances his clients were set free.

Born in Hillsboro where his father was Common Pleas judge, for many years, he studied hard and at 16 was teaching school, being admitted to the bar in Illinois at the age of 19 years. For twenty years past he has made his home in Columbus. He was for a time a law partner of Senator Foraker.

In cases relating to this city, Ulric Sloane's two most noted criminal cases were those of Col. A. B. Coit and George Kirby.

Funeral services will be held and burial will take place in his home town of Hillsboro, where his ancestors are interred.

POLICE FIND "EVIDENCE" BUT BIRDS HAD FLOWN

Receiving a tip that there was "something doing" in the "Red Lion" building late Saturday night, the police kept a watch on the place for some time and about two o'clock Sunday morning made a raid in search of gamblers and their outfit.

In one of the rooms under control of Joe Tapsico there was evidence that something had been doing, according to the police, but the birds had flown and only a gaming table with chairs about it, four empty

quart bottles and other "signs" remained to tell the story.

There was a strong denial that a game had been in progress, but the police believe they were just a few moments too late to make a haul, and that in all probability it had been tipped off that indications pointed to a raid.

Chief McCoy and Patrolmen Cogswell and Bell took part in the raid. Tapsico is one of those who returned under suspended sentence to the city, and was placed under probation.

New Soda Fountain Largest in City

The Blackmer & Tanquary drug store has just completed the installation of a splendid new soda fountain, largest in the city.

The new fountain is constructed from a strictly sanitary point, and is handsome in detail, possessing many new features. It is 12 feet in length and constructed of Carara and opal

onyx glass, with bronze ornaments and German silver and nickel trimmings.

It contains 12 syrups, 2 crushed fruits and 3 draft arms, with a new feature in the "clear counter" service. The massive back-bar with its mammoth mirror adds beauty to the big fountain.

HOW "TRIS" SPEAKER SECURED HIS NAME

"Tris" Speaker, Famous Boston Player.

"I am a native of Texas and in my country we cut down everything as much as possible. Therefore when my parents wanted to name me Tris, I was given the abbreviation, and have had to go through life with simple 'Tris,' said 'Tris' Speaker, the famous outfielder of the Boston Red Sox.

"I became a left-handed batter and thrower through an accident that crippled my right arm when I was ten years old. I was thrown from a bron-

cho and my collar bone and right arm were broken. I began to use the left flip and when the injured member had recovered I found that I could perform better with my port side.

"I have loved to play ball as long as I can remember. My first princely salary was with the Cleburn club in the North Texas league. I got \$65 a month and the league busted. I then went to Houston and eventually landed in the American league."

"VETS" PASSING OUT

Kid Eiberfeld Is Latest of Old Timers to Go.

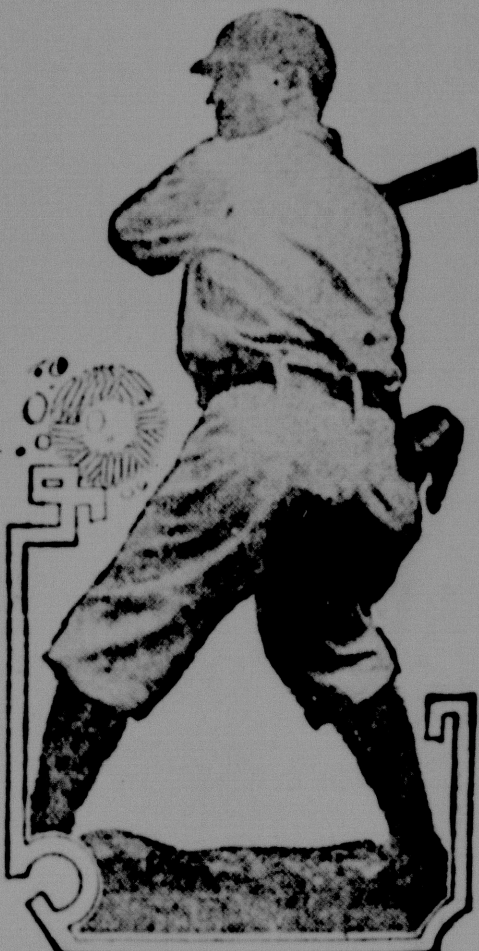

Few Players in Sixteen Clubs of Major Leagues Who Competed in Games There Five Years Ago—Athletics New Bunch.

One by one the veterans of the baseball world are dropping back either into the minors or out of the game altogether. This fact has been brought home again by the retirement of Kid Eiberfeld by the Washington club. Yet Eiberfeld, with the rest of those who are slipping, can say that he went the route and had his measure of success with the majors. The Kid always was a fighter, or, always after a victory. He never quit, and will long be remembered as a player of the Jennings type.

When you look back over the roll call of the sixteen major league clubs you find comparatively few players there who competed five years ago. The only club which looks about the same is the Cubs. With the exception of third base and catcher this squad is the same as that which played and lost the world series to the White Sox.

Of the Sox, however, most of the veterans have gone. In the regular lineup, exclusive of the pitchers Sullivan and Tannehill are the only ones left—and Tanny was not a regular player toward the end of that famous season. Pat Dougherty still is with the team, but his playing days are about over, and he has no berth on the team these days.

The last five years have seen great changes in the Athletics. The world champs are practically a new bunch having been built up by Connie Mack

Kid Eiberfeld.

in the short space of four years. The Giants are different, vastly different from the McGinn, Strang, Dahlen, Mertes, Seymour and Bowerman of that noted bunch.

Detroit has had fewer changes than the majority of the teams, but it is claimed that some of the present bunch will not last much longer. Cleveland is a gang of youngsters as far as years and experience go. Boston fans scarcely recognize their two teams any more, and the same is true of St. Louis. The Phils have added many comparatively young players in the last five years, and so have the Senators and Brooklyn.

Baseball fans are constantly clamoring for new blood, want the snap and action young stars bring into the game. Baseball is getting to be less of a game for veterans as the years go by. A man is a 'has-been' if he reaches the thirty mark. Just when men in other lines of activity are achieving success the ball player is getting ready to be retired.

GOOD JOKE ON CHAS. EBBETS

Hap Hogan, Manager of Vernon Team Springs Hair-Trigger "Come Back" on Brooklynite.

Hap Hogan, the Vernon manager, was one grand card at the San Antonio meeting of the minors, and his compatriots from the Coast league, realizing this, played him to the limit. Hogan, needless to remark, was always there with the hair-trigger "come back."

These induced Charles H. Ebbets to offer Hogan the management of the Brooklyn club. Did Hogan fall for the plot? Yes, in his own way.

"Sure, I will accept the management, but it must be under my own terms," replied Hogan in all seriousness.

"And what are they?" asked Ebbets.

"Well, I figure that one of the first things that you need is a real ball team," explained Hogan. "For that reason, I would have to ask the privilege of transferring the Vernon club bodily to Brooklyn. In that way I think that we might be able to place your big suburb on the baseball map."

The laugh that followed was long and loud, and Ebbets attempted to drown it by turning to study the table for the game.

ATHLETICS TO WIN IN 1912

Captain Frank Chance Says "Stuffy" McInnis Is Only Unknown Quantity in Infield.

"The great strength of the Athletics lies in the fact that the Mack machine really has no glaringly weak place in its line-up," said Manager Frank Chance of the Cubs the other day. "First base is the only position that is open to question, and I am not qualified to pass on that, for the simple reason that I did not have an opportunity to see McInnis in action."

"If he is as good as claimed, the Athletic infield practically is without a flaw. Mack has a fine pitching staff, his outfield has shown its ability to deliver the goods, while the catching force has demonstrated that it is good enough for all practical purposes."

"In short, the Athletics are a well-rounded baseball machine, and I believe that they are in line for another

"Stuffy" McInnis.

world's championship, and possibly two. In my opinion, it will take from one to three years for the National league to develop a team which is capable of wrestling the world's title from the Athletics.

"Most of McGraw's mainstays are comers, and New York should have a good team two years hence. In fact it is possible that this is the team which eventually will take the measure of the Athletics. Although in the process of rebuilding, we expect to be up in the race ourselves, while Pittsburgh will bear watching."
